CHORUS:

Gather the family here we belong
 And welcome good stranger come in
 Our voices together all singing one song
 And its here that the future begins

Our measure of worth's not in power or gold
 The greatest truth come from the heart
 It's how we take care of the weak and the old
 And this is a place we can start

Chorus

Our ancestors came from a way far away
 From a thousand traditions and kin
 What we all share together as we stand here today
 With a chance to start over again

And so like a forest our roots hold the past
 While our branches reach into the sky
 Let our gift to our children be family that lasts
 And a future to which they can fly
